

Na operačných systémoch Windows je možnosť nastaviť Watch pre sledovanie štartu (reštartu) priamo na ploche počítača prostredníctvom C-Monitor Console. V prípade, že toto je váš prvý Watch, prečítajte si najprv [ako vytvoriť Watch v C-MonitorConsole](#) [1]

Preskočiť na [Nastavenie prostredníctvom podmienky OS system started](#)

Nastavenie prostredníctvom podmienky Windows Running time

V C-Monitor Console v nastaveniach Watchov pridáte nový watch pomocou kliknutia na Add Watch With Wizard.

Pomenujte nový watch vystihujúci sledovaný parameter (môžete pridať aj názov počítača):

Obrázok: Obrázok: Pomenovanie nového Watchu

Zvoľte možnosť "Windows running time"

Watch Wizard

Add condition for "Operating system restart"

Obrázek: Obrázok: Výber podmienky k Watchu

Ďalej je potrebné nastaviť parametre podmienky. Lahko sa vám ju nastaví, ak podmienku prečítate v tvare : Podmienka bude true, ak Windows running time bude väčší ako 10min (zodpovedá to obrázku nižšie). Podmienka bude FAIL po štarte počítača od cca 5min (vtedy začína C-Monitor vyhodnocovať Watche) do spomenutej 10min. Čiže k jednému reštartu vám príde dve hlásenia. Najprv FAIL, že počítač beží menej ako 10min a následne v 10minúte behu, príde notifikovaná zmena Watchu do stavu OK.

The screenshot shows the 'Watch Wizard' window with the title 'Windows running time'. It contains the following fields and options:

- Operator:** A dropdown menu with the value '>' selected.
- Time From OS Start:** A text input field containing the value '10'.
- Unit:** A dropdown menu with the value 'min' selected.
- Value from this condition send to CM server:** A group box containing three radio buttons:
 - ☒ If value changes more than 10 min (The '10' is in a text input field).
 - ☐ Always
 - ☐ Never
- ☐ Assess the state of watch
- Navigation buttons:** '< Back', 'Next >', and 'Cancel'.

Obrázok: Obrázok: Nastavenie podmienky k Watchu

Dokončenie pridania watchu je možné urobiť ihneď kliknutím na "Skip Actions", ak nie je požadované pridanie ďalších akcií pri zmene stavu watchu. ([pre nastavenie Akcií čítajte tu](#) [2])

Watch Wizard

Conditions for "Operating system restart"

1 Windows Running Time < 10min
Check on each watch state evaluation
Value will be sent to CM Server only if change to last sent value is more than 10

Add Condition Edit Condition Delete Condition

State of watch is **OK** if all conditions are true **FAIL** - if at least one condition is false

☐ Delay for FAIL state. (Useful for suppressing short term FAIL state)

Show Advanced Options

Note: Watches are active from 5 min after the operating system start

< Back Next > Skip Actions >> Cancel

Obrázok: Obrázok: Dokončenie vytvárania watchu

Príklad notifikácie a spôsob kontroly správnosti nastavenia je na konci článku pri nastavení tohto Watchu cez CM portál [tu](#) [3].

Nastavenie prostredníctvom podmienky Operating system started

V C-Monitor Console v nastaveniach Watchov pridáte nový watch pomocou kliknutia na Add Watch With Wizard.

Pomenujte nový watch vystihujúci sledovaný parameter (môžete pridať aj názov počítača):

Watch Wizard

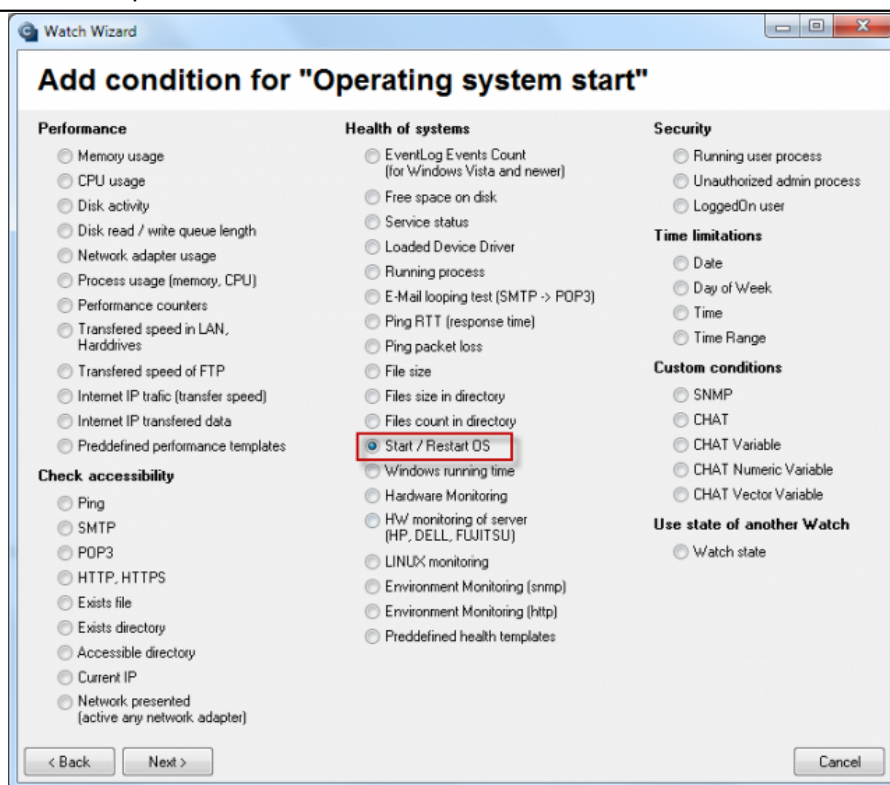

Create watch with wizard

Name of watch

Tip
Choose meaningful, descriptive name of watch, because this name will be used for suggesting notification messages texts.
Proper watch name is e.g. "Free disk space on SERVER1"

< Back Next > Cancel

Obrázek: Výber podmienky k Watchu

Ďalej je potrebné nastaviť parametre podmienky. Ľahko sa vám ju nastaví, ak podmienku prečítate v tvare : Podmienka bude true, ak sa za posledných 8 minút nenaštartoval operačný systém (zodpovedá to obrázku nižšie). Podmienka bude FAIL ak sa za posledných 8 minút operačný systém naštartova čiže PC sa reštartoval.

Zvoľte možnosť "Start/Restart OS"

The screenshot shows a window titled "Watch Wizard" with a subtitle "Start / Restart OS". Inside the window, there are two input fields: "OS was started" with a dropdown menu set to "No", and "In last minutes" with a text box containing the number "8". Below these fields is a section titled "Value from this condition send to CM server" containing two radio buttons: "Always" (which is selected) and "Never". At the bottom left of this section is a checkbox labeled "Assess the state of watch" which is currently unchecked. At the bottom of the window, there are three buttons: "< Back", "Next >", and "Cancel".

Dokončenie pridania watchu je možné urobiť ihneď kliknutím na "Skip Actions", ak nie je požadované pridanie ďalších akcií pri zmene stavu watchu. ([pre nastavenie Akcií čítajte tu](#) [2])

The screenshot shows the 'Watch Wizard' window with the title 'Conditions for "Operating system start"'. It contains a list of conditions with the first one being '1 OS has not been started during the last 8 minutes'. Below the list are buttons for 'Add Condition', 'Edit Condition', and 'Delete Condition'. At the bottom, there is a section for the state of the watch, a checkbox for 'Delay for FAIL state', and a 'Show Advanced Options' button. A note at the bottom states: 'Note: Watches are active from 5 min after the operating system start'. Navigation buttons include '< Back', 'Next >', 'Skip Actions >>', and 'Cancel'.
